📖 Fold a Corner Bookmark

Use a separate square of origami paper and follow the steps.

You need: 1 square sheet (15×15cm suggested). Start with the colored side down.

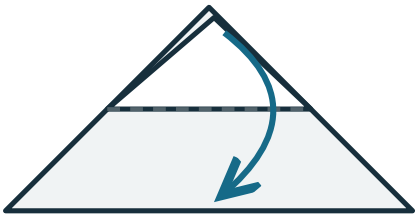

Arrows show movement. Dashed lines show folds.

① Fold in half

Place the square as a diamond. Bring the bottom point up to meet the top point.

② Lower one layer only

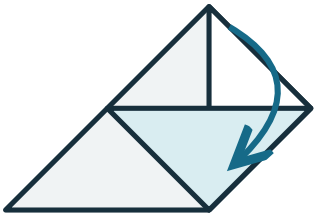

The top has two layers. Fold only the front point down to the middle of the bottom edge.

③ Crease both sides

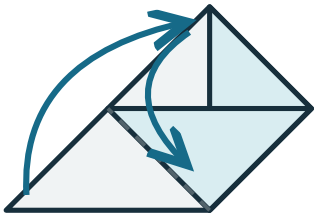

Fold each side point up to the top point, then unfold. Keep the small front triangle folded down.

④ Tuck in the right tip

Fold the right corner up again. Tuck the raised tip into the pocket behind the front triangle.

⑤ Tuck in the left tip

Fold the left corner up and tuck its tip into the same pocket. Press flat.

⑥ Slip over a page corner

Turn the bookmark to fit a page corner. Draw a face or pattern on the outside if you like.
